

GLOBAL IMAGE AUSTRALIA

We have been in business since 1995, supplying the souvenir, framing and travel industry with high quality products. Our range varies from postcards, posters, jigsaw cards, magnets, plates, drink coasters, mugs, keychains and more.

Our latest release is, Images printed on CANVAS. All images are taken with a Linhof Panorama Camera and captured on Fuji film. The canvases are hand signed from Jorg, with a Certificate of Authenticity.

Please go to www.globalimage.com.au to view our unique premium merchandise at extremely competitive price. Please click on the shopping link then the Canvas button for available prints.

Jorg Heumuller is a Melbourne based Photographer, originally from Germany. He has travelled across many continents capturing images and the essence of Landscapes with their rich and vibrant colours. His passion for his work has brought him to one of the world's truly image rich Countries with its diversified Landscapes and ever changing light and mood. A master of the panoramic image, his superb vistas of Australia pull viewers deep into the frame and give them a real sense of the landscape as he sees it. Initially trained as a camera technician, German-born Jorg first visited Australia in 1990 and was so taken by the country that he shot 250 rolls of film.

Working in remote locations, he sets up to catch the 'magic hour' around sunrise and sunset when the low light spills onto the film and warms the landforms to perfection.

With over 60,000 panoramic images under his well-travelled belt, Jorg Heumüller is well aware of the power of the panorama when it comes to showing what we have now and what we need to look after.

If it all goes as planned, he would like to use his photography to support national park's within Australia.

J. Heumüller
